## BCM Makes Major Cost Savings For Health Care Organisation

### Michael Hennessy, Director of Finance with Brothers of Charity Southern Services with BCM CEO John Mac Namara

BCM has recently completed a major cost management project for The National Federation of Voluntary Bodies in Ireland.

The National Federation of Voluntary Bodies is an umbrella group representing the interests of 63 voluntary & non-statutory organisations engaged in direct services provision to people with intellectual disabilities.

This includes such well known organisations in Ireland as Brothers of Charity Glanmire, Co Cork, Brothers of Charity Galway, St John of God, Western Care, Kerry Parents & Friends and many more.

The BCM Cost Management project has been hugely successful with seven figure savings found in various categories including printing, fuel, food, electricity, stationery, property rentals, waste

management and transport with further categories still to be reviewed.

Michael Hennessy, Director of Finance with Brothers of Charity Southern Services, Co. Cork stated:

*"We are delighted with the savings found by BCM which go directly to our bottom line. We also found the services provided by BCM to be professional and non-intrusive to our day to day operations and furthermore the implementation of the savings was efficient and managed completely by BCM."*

*"We also found BCM to be very sensitive to the special needs of our organisation."*
